

PRODUCT OVERVIEW

We specialize in manufacturing rubber tubes and sleeves to meet any size specifications, utilizing a range of our advanced compounds.

KEY FEATURES

- **Custom Fabrication:** Our tubes can be tailored to precise requirements, ensuring optimal performance for specific applications.
- **Seamless Construction:** Using our red QUARRYTECH compound, we produce drop chute sleeves as fully vulcanized hoses without joints, addressing the common point of failure seen in traditional designs over time.

APPLICATIONS

Designed for durability and reliability, our custom rubber tubes and sleeves are ideal for various industrial applications, including drop chutes, pinch valve sleeves, truck fill socks, water pipe connectors, and inflatable tubes.

CAPABILITIES

Size	DN 12-1200mm
Length	Up to 20mt, <i>Dependant on hose I.D*</i>
Tube	All compounds available depending on application
Cover	All compounds available depending on application
Temp	-30/+135C
